

Semiconductor supply chain and product manager

Planner High-NA EUV Research Lab

About the company

Qplox is a fast-growing company offering test and automation engineering. Headquartered in Leuven, with offices in Barcelona and Eindhoven.

Our clients are major multinational enterprises and local companies from automotive, semiconductors, RF, consumer electronics.... Our Test automation group offers a one stop shop for design of automated test benches, system integration production, lab automation and data acquisition systems, with a growing focus in IoT sensor networks.

Our consultancy department offers services in RF, semiconductors and electronics design and test, as well as on the crossing roads of Nanotechnology, Bio-Science Engineering and Biotechnology.

Job Description

You facilitate the planning and execution of multiple, parallel experiments coming from different customers (internal and external). This will involve scheduling of all needed wafers, materials, masks, and tools at the high-NA lab and securing back-up tools at our customer campus where possible.

The assignment

- *The planning and execution of multiple, parallel experiments*
- *Scheduling of all needed wafers, materials, masks and tools at the high-NA lab and securing back-up tools at our customer campus where possible*
- *Ensure timely shipping of goods back and forth.*
- *Provide information to help define priorities in the overall schedule to meet all deadlines after aligning with the customer representatives and the high-NA execution team.*
- *Actively identify opportunities for increased efficiency and come up with new systems and improved working methods.*

Location: Eindhoven

Candidate Description

- You obtained a master's degree in business, Supply Chain management or related field.
- Showing proficiency in MS Office and planning software and having experience with data analysis
- You are a great communicator who is persuasive and good at presenting information. Good knowledge of (spoken and written) English is a must.
- You can work on your own, you are flexible and pro-active, and service driven.
- Industry-specific experience is a plus.

We offer

An attractive salary package with extra benefits. A high tech, multicultural and young ambient. A fast track in a growing company. Formation in multidisciplinary environment plenty of learning opportunities.
